Tara,

I recommend that you read the following to the candidates who are appearing at the practice session tonight and then post to the Council Candidate Q & A tomorrow.

Following is the Law Department's response in regard to a candidate question about backgrounds for the moderated candidate forum and the five-minute recorded statement:

Candidates may choose the background for their virtually recorded five-minute candidate statement and the virtual live-stream, moderated candidate forum. Candidates should keep in mind the proper decorum. Candidates may not use profanity or obscenity in their background.
